Instructions for Mailing a Product to Myers Electric for Repair:

- 1) Call 402-393-8388 to confirm that we are able to repair your product, what those repairs will cost, and whether we need time to order replacement parts. This is a crucial step, and will save you money if it turns out that we cannot fix your item.
- 2) Check <u>https://postcalc.usps.com/</u> for pricing options. For items in between 2-5 pounds, Fedex and UPS are cost-efficient. We recommend USPS flat rate boxes for items lighter than two pounds or heavier than five pounds, though the choice of shipping provider is up to you. Their express services are also fairly reliable. If you wish, you can order USPS Priority Mail boxes for free online, print the shipping label, and then schedule a free pickup of your package.
- 3) Print the shipping label online on the UPS, Fedex or USPS website, and carefully pack your items. Myer's address is 7342 Farnam Street, Omaha NE 68114. This is the part of the process where you pay for shipping. We will calculate the cost of shipping the product back to you into your final bill.
- 4) Fill out the form on the next page and insert it into the package, then drop off your package at your chosen delivery service!!
